

#PROGRAMMING.README

- Code Along – New to coding? Need a coding buddy? Join me as I work on a coding assignment or my own project. All levels welcome, no **project** is too small!
 - Every Saturday ~1hr live stream
-

Weekly coding challenge – For those that want to get their feet wet, or simply want to sharpen their skills, every week we'll post a coding problem. It's a problem that will focus on one fundamental aspect of coding, and anyone who solves it gets 10k henny!

Get involved – Programming is an art mastered alone but created for everyone. If you have a project or something you worked on, tech-related, submit it to have it showcased to the community! You never know what connections you'll create with your work!
